

McDonalds Hamburger University

Problem:

This famous landmark building featured a variety of natural elements such as stone floors and wood ceilings. Our task was to find a way to create display solutions to make statements about what they do yet allow for the flexibility to change the graphics, etc. from time to time. In addition, the end result could not distract from the beauty of the environment and surroundings. Here we used cable; low voltage lights and 250 lb. glass panels to complete this project.

Solution:
